1. Introduction

Graduate Studies uses an electronic form and workflow process using OnBase for many of the graduate student forms previously processed on paper.

As a Graduate Advisor, assigned program-level approver, or Department Chair, you can do the following using Hyland OnBase:

- View pending and completed Graduate Studies forms for students in your program.
- Initiate and submit forms on behalf of students in your program (for select forms only).
- Approve/Deny/CANCEL/Process forms for students in your program.

Support

If you have any questions or suggestions, please contact Graduate Studies.

    OnBase.

Firefox or Chrome browsers.

3. Notifications

• You will be notified about electronic forms pending your approval
  minutes after a student submits a form.
• The notification email will contain the link to log into Hyland OnBase,
  where you will be able to view, approve, deny, process, or cancel forms
  for students in your program.

  notified and added as an approver to help facilitate the timely
  processing of forms.
